Recommendation for Victor Fadipe's Scholarship Application

Dear Scholarship Committee,

I am pleased to write this letter of recommendation for Mr. Victor Fadipe, who currently serves as IT Advisor – Systems Administration at MEBS Global Reach, supporting the Global Fund's 4PL Malaria Supply Chain Program in Nigeria.

Since joining our team, Victor has consistently demonstrated a high level of technical expertise, professionalism, and initiative. His strong background in software development and server administration has been instrumental in strengthening our IT infrastructure and supporting the operational efficiency of our supply chain programs.

One of Victor's significant contributions has been the design and development of a web portal that reconciles pharmaceutical and insecticide-treated net (ITN) distribution data during last mile delivery across 13 states. This portal has become a vital tool for ensuring transparency, accountability, and coordination across the supply chain. In addition to building the platform, Victor also manages the associated web server, email server, and databases—ensuring system security, continuous uptime, and responsive performance. These tools are now widely used by field teams, stakeholders, and implementing partners to guide real-time logistics decisions.

Beyond his technical work, Victor is a collaborative and solutions-oriented team player. He engages regularly with program teams to troubleshoot issues, improve backend systems, and enhance the usability of digital tools. His thoughtful, impact-driven approach to technology has played a key role in fostering a culture of data-driven decision-making within our operations.

Victor is passionate about using technology to drive sustainable improvements in public health and supply chain systems. I have no doubt that his selection for the Graduate Certificate in Foundations of Supply Chain Management at Arizona State University will further equip him to lead innovative solutions that benefit underserved communities.

Please feel free to reach out (via email or a phone call) if you would like to speak further about his qualifications or contributions.

Sincerely,

Tony Anammah, B.Pharm, M.Sc, MCIPS (CS)
